

a hub of positive reproductive & sexual health

hive brand guidelines

Logo

The HIVE logo has been created in a horizontal configuration. The logos are available for use in color and reversed for use on dark backgrounds.

The preferred version for use of the logo is the color version on a white background. In the case of a black background the colored logo should be used. In instances of colored backgrounds the reversed logo should be used instead.

Preferred Color Version on White Background

a hub of positive reproductive & sexual health

Color Version on Black Background

Reversed on Colored Background

dark pedal = 90% White; light pedal = 66% White
type = 100% & 66% White

Black and White

dark pedal = 100% Black
light pedal = 70% Black
type = 100% Black & 70% Black

Printing Restrictions

Color printing may not always be available. If only black ink is available, use the solid black and white version of the logo.

Logo Usage

Clear Space

The area around the logo is known as the clearspace. Maintaining the clearspace around the logo will ensure that the logo stands out from other elements used in its proximity such as text, photography, and other graphics. The clearspace is determined by measuring the height of the letter “h” and then applying its distance to all sides of the logo.

Minimum Size

To ensure legibility and overall quality of the HIVE logo, adhere to the minimum size requirements which is determined by the width of the logo. For print use, the width should be a minimum of 1.25” and for online use the minimum width should be 130pixels.
